

I.S.L.E. Network Newsletter

Innovation in the Teaching of Sustainable Development in Life Sciences in Europe.

I.S.L.E.

Issue 1, March 2011

Editor's Corner

The 1st I.S.L.E. Network newsletter is now available! The newsletter will provide updates on news and events related to the project and the teaching of Sustainable Development around Europe.

This issue features reports on the main outcomes of the I.S.L.E. Kick-Off Meeting that took place at the premises of AgroSup Dijon, France between November 2-4, 2010 and the second project meeting that took place between February 21-25, 2011 at the University of Teramo, Italy.

I.S.L.E. Network News

I.S.L.E. Network Website

The first version of the I.S.L.E. Website is now available. It provides information about the I.S.L.E. project, such as the participating institutions and the key persons for each institute, the project's outcomes as well as updated news and events. There is also a section providing links for quick access to websites related to sustainable development in general, access to handbooks and other reference books on sustainable development in digital format, lists of affiliated partners as well as links to related higher education institutes.

I.S.L.E. Project Kick-off meeting AgroSup Dijon, France

The 1st I.S.L.E. Project Meeting took place at the premises of AgroSup Dijon, France between November 2nd and 4th, 2010. As expected all project partners were represented and had the opportunity to meet the rest of the consortium members as well as discuss various issues, such as the responsibilities of each partner.

Organizing a consortium consisting of 40 partners from 31 different countries is not an easy task, but the coordinators and hosts of this meeting organized everything in a nice way, so that all project partners left Dijon with the best impressions.

DI TERAMO

I.S.L.E. 2nd Project Meeting Teramo, Italy

The 2nd project meeting of I.S.L.E. took place between 21-25 February 2011 at the University of Teramo, Italy. The project members had the opportunity to meet and discuss issues concerning the progress of the project so far and to discuss the "State of art" work package (WP3).

The meeting was accompanied by social events and activities related to sustainable development, such as the dinner held at an agro touristic farm as well as the case study visit on the last day of the meeting.

Featured Partners

Corinne Stewart | Project Coordinator & WP1 Leader

Corinne is the “International Programmes” coordinator at Agro-Sup Dijon in France.

She holds a Bachelor of Arts in European Languages and Business and a Master’s degree in Business Administration. She has 10 years experience in the management of European projects (LLP, Tempus, Atlantis...).

Along with Christine Notte & Amélie Jaillet, they form the Agro-Sup Dijon team, which coordinates the network and supports the activities of the various work packages.

Dr. Emilio Chiodo | WP3 Leader

Emilio is a researcher in Agricultural Economics and Policy. Lecturer in Economics and management of wine enterprise / wine legislation; Wine marketing.

The fields of Emilio’s research include different research topics on agro-food economics, agricultural policies, rural development and enterprise management in agro-food sector.

As WP3 leader, he is responsible, among others, for the coordination of the results of this WP in order to extract relevant information, the analysis of the results and the “Good practice compendium.

Dr. Pedro Aguado | WP2 Leader

Pedro is a Full Professor of Project Management at the Agrarian Engineering School of the University of Leon. He holds a graduate degree and a PhD in Agricultural Engineering from Polytechnic University of Madrid. Pedro has served as Vice-rector for Planning and Institutional Assessment, Director of the Postgraduate Courses Area (Master & Doctorate) and Vice-director of the Agrarian Engineering School at the University of Leon.

As a WP2 leader, Pedro is responsible, among others, for the coordination of the collection of information both at National and European levels for the State of the art of sustainable development in Life Sciences in Europe.

I.S.L.E. Project Workplan

The workplan of the I.S.L.E. project has been structured into eight (8) Work Packages (WPs), which facilitate the proper organization and implementation of the project. The WPs are the following:

WP1: PROJECT MANAGEMENT

WP2: STATE OF THE ART: INFORMATION COLLECTION CONCERNING SUSTAINABLE DEVELOPMENT IN LIFE SCIENCES IN EUROPE.

WP3: IDENTIFYING SUSTAINABLE AND USER-FRIENDLY GOOD PRACTICES.

WP4: PROFESSIONALISATION

WP5: EXPLOITATION

WP6: INNOVATION PRACTICES

WP7: QUALITY CONTROL & ASSURANCE

WP8: DISSEMINATION
